PROFESSIONAL SUMMARY

I am an [ISTQB Certified Tester](#) with 8 years of experience as a Software Test Automation Engineer, dedicated to ensuring software quality and functionality. I am skilled in Java/Kotlin programming, my skills are:

SKILLS

Android SDK, Espresso, Kaspersky, Appium, Gitlab-CI, Docker, Marathon, Postman, Rest Assured, SQL, Jira, TestRail, Manual Testing. I am eager to continue developing my expertise in test automation and expanding my technical skills in Quality Assurance.

EXPERIENCE

REWE International – IT Development Expert | 12/2024 – Present, Vienna

- Have built a native Android UI test framework for 2 android apps - the 1st is a 10-flavor app (**Billa+Penny**, reusable screen/semantics DSL) and 2-nd **Jö Bonus** club.
- Have set up parameterized GitLab CI/Docker pipelines with variables such as suite (Smoke, Sanity, Regression), feature, emulator count, and retry limit for flaky tests.
- Have enabled parallel execution on 2 emulators with a horizontally scalable setup to add more; standardized AVD provisioning and configured artifact publishing (logs, screenshots, videos, Allure reports).
- Add mobile UI coverage with Appium alongside native E2E/UI test frameworks.
- Write backend REST API tests.
- Author documentation and onboarding guides; define coding standards.

Zattoo GmbH – Software Developer Engineer in Test | 03/2022 – 10/2024, Berlin

- Built the Android automated test infrastructure from scratch for both Android TV and mobile apps.
- Implemented environments to run online/offline UI tests locally and in CI.
- Mentored and trained the entire Development Team in test automation practices.
- Authored technical documentation, including an internal automation convention.
- Performed static testing, reported defects, and assisted with manual testing.

QA Automation Engineer – Andersen Lab | 07/2017 – 11/2021, Odessa

- **Wink - TV Video Service (Oct 2018 – Oct 2021)**: Built 230 UI tests; set up CI with GitLab CI + Docker; parallelized on 15 AVD; cut regression from 90m to 13m (~86%).
- Trained 3 manual testers to automation; authored automation-ready specs and coding guidelines.
- **Internet Banking (Nov 2017 – Oct 2018)**: Maintained and extended UI automation; defect triage with devs; stabilized suite and reduced flaky tests.
- **Car Rent Mobile** (Jul 2017 – Nov 2017): Functional/GUI/smoke/regression for Android/iOS; established defect reporting & validation flow.

EARLIER CAREER – Banking (UniCredit Bank and prior roles) | Odesa, Ukraine | 08/2004 – 05/2014

- Advanced from Certified Property Appraiser to Branch Manager, overseeing branch operations and client portfolios.
- Led team management, customer communication, and regulatory compliance in a high-volume retail banking environment.
- Built long-term client relationships and negotiated services; collaborated cross-functionally with risk and legal.

EDUCATION

Master of Education in Computer Science. State Pedagogical University, Physics-Mathematics Faculty, Odessa. (5-year program). Accredited in Germany and Austria

WORK AUTHORIZATION EU Blue Card AT (valid)

LANGUAGES English (C1), German (A1), Russian / Ukrainian (native)
